SUBJECT INDEX FOR VOLUME 28

accountability, of nursing homes, 37–44

Africa, the AID problem, 1–8

AIDS, in Africa, 1–8
and homosexuality, 561–569
and health beliefs in Zimbabwe, 957–961
comparative susceptibility, 1211–1220

alcohol-related death, among American Indian tribes, 275–284

Andean medicine, compared to Greek medicine, 45–51

Argentina, health and welfare in, 497–514
the development of psychoanalysis, 751–758

ayurvedic medicine, 963–970

breast cancer, its psychosocial effects, 19–27
in Finland and Estonia, 233–238
and survival, 233–238

breast feeding, in Singapore, 271–274
and health professionals in Indonesia, 355–364

cancer, and patient causal attributions, 93–97
and emotional expression, 1239–1248

censorship, and medical sociology in the Netherlands, 1339–1341

child health, and geographical mobility, 197–205
and employment, 195–205
and social inequalities, 613–619
in South Africa, 659–667
in South Africa, 741–750
and food taboos in Nigeria, 985–996

Chile, psychosocial effects of torture, 735–740

clinical judgement, 99–107

community based health care, in Kenya, 1007–1017
in a Kenyan hospital, 1059–1062

community health, 811–818

community participation, in disease control, 1255–1267

coronary arteriography, rates in Switzerland, 115–120

cost effectiveness, the cost of mild hypertension programmes, 211–222

critical medical anthropology, 1193–1203

decision making, in nursing homes, 37–44, 99–107
and the use of QALYs, 299–308
and non-scientific drug prescribing, 577–582
and QALYs, 1331–1338

Denmark, and treatment of hypertension, 131–139

dental health policy, 583–591

developing world, and health information, 9–12
and aging, 59–67
and information-based rehabilitation for the disabled, 207–210
political violence and health, 631–767
and medical technology, 769–781

diarrheal disease, in Nepal, 593–604

disasters, their appraisal, the case of Three Mile Island, 389–398

doctor/patient, communication, 315–321
relationship, in surgical and orthopaedic practice, 829–835
relationship, 945–956

drug utilisation, by physicians, 577–582
as self medication in Ecuador, 905–915

East Africa, and women's health, 447–459
health care in, 1005–1097

Ecuador, mental health problems, 899–904

El Salvador, health and the United States policy, 697–706

epidemiology, in Latin America, 1121–1127

Eritrea, and health care, 677–684

family health, and cardiovascular risk, 309–314

fertility, in a rural society, 285–292

Fijaᶜ, and health belief models, 381–388

foetal mortality, in Curaçao, 837–842

gender differences, and physician responses, 87–92
and social support, 1221–1228

haemophilia, and employment in the Netherlands, 261–270

health, and the state, 1159–1164

health behaviour, 29–36

health beliefs, women's perceptions of medical technology, 223–231
and child mortality in Turkey, 571–576
and treatment in Nepal, 593–604
among civil servants in Southwestern Nigeria, 917–924
among Hispanics, 1229–1238
and smoking in Australia, 1311–1314

health care, and patient satisfaction, 53–58
ageing in the developing world, 59–67
outcomes, 109–113
in the Netherlands, 121–127
in a Swedish county, 141–146
the development of data bases, 175–182

and female cancer patients, 233–238
and political violence, 631–767
refugees in the Netherlands, 729–733
in East Africa, 1005–1097
in Somalia, 1019–1030
in Tanzania, 1031–1037

health communication, in hospitals, 339–346

health education, in Sri Lanka, 365–379
and schistosomiasis in Zimbabwe, 1249–1253

health information, and the developing world, 9–12
and Third World disability, 207–210
consequences, 315–321

health outcome, and regional variations, 147–154

health policy, paternalism and the anti-smoking lobby in Finland, 293–297
in Argentina, 497–514
in the United States, 531–538
in France 1981–1986, 539–550
comparative studies, 887–898

Health professions, 69–80
vocal behaviour, 87–92
and the treatment of uncertainty, 99–107

health promotion, and personal control, 819–828

health relief policies, in the Sudan, 707–713

health risks, in coronary surgery, 115–120

health services, practice patterns and their economic impact, 165–173
in Nicaragua, 669–676

health systems, differences in treatment patterns for schizophrenics, 323–331

heart attack, and patients' causal attributions, 93–95

heart disease, and support networks, 249–260
and prevention, 309–314

hepatitis A, and immunisation politics in the United States, 843–849

homosexual behaviour, and AIDS, 561–569

hospices, and health care research, 551–559

hospital budgets, and admission rates, 861–867

hospitals, the measurement of efficiency, 13–17
inter-professional communication 339–346
admission rates and budgets, 861–867
and nurses' satisfaction, 1315–1320

hospital utilisation, 155–164
and geographic variation, 347–354

hypertension, and regional variation, 131–139
programme economics, 211–222
and ideology in the clinic, 1205–1209

hysterectomy, in Denmark, 147–154

illness behaviour, 851–859

immigration, and traditional medicine among Koreans in the U.S., 875–884

immunisation, 843–849

Indonesia, breast feeding patterns, 355–364

industrial accidents, and workers' compensation, 1113–1120

industrialisation, and occupational health in sub-Saharan Africa, 475–496

infant mortality, changing patterns, 59–67
and child mortality in Turkey, 571–576

job satisfaction, among nurses, 1315–1320

Latin America, and its collective health, 1183–1191

Lebanon, and epidemiology, 643–647
maternal and child health, 685–695

life style, employment and health among American men, 1269–1274

marital dyad, and renal disease, 971–983

martial arts, and conceptions of the body in South India, 1289–1309

Marxism, perspectives of health, 1099–1209

medical advertising, psychotropic drugs, 333–338

medical anthropology, in Mexico, 1343–1349

medical education, and stress, 1321–1329

medical professions, 1165–1170

medical students, and tolerance for ambiguity, 869–874

medical systems, in the U.S., 1103–1112

medical technology, and women's beliefs, 223–231
and the labour process in health care, 1149–1157

mental health, and political refugees, 715–727
in Ecuador, 899–904

mental health services, trends in the United States, 1139–1148

Mexico, the development of medical anthropology, 1343–1349

migration, and stress among Southeast Asian refugees, 183–195

mortality rates, and alcoholism in Oklahoma, 275–284

national health insurance, and U.S. policy, 887–898

Nepal, diarrheal disease, 593–604

Netherlands, regional spread of professionals, 121–127
employment of haemophiliacs, 261–270
health care policy for refugees, 729–733
Antilles—foetal and neo-natal mortality in, 837–842

Nicaragua, war and health services, 669–676

Northern Ireland, the problem of stress, 621–624

nursing homes, regulations, 37–44
and mental dysfunction, 399–403

nutrition, and the commoditization of food systems, 415–446

obstetrics, models of teaching and learning, 925–944

occupational health, in sub-Saharan Africa, 475–496
and workers' safety, 1171–1182
the case of the clothing industry, 1283–1288

pain, and punctuality, among Sicilian-Canadians, 851–859

patient accidents, the fall-prone patients, 81–86

patient involvement, and surgery, 829–835

patient satisfaction, 53–58

personal control, and health promotion, 819–828

personality, and health-related behaviour, 29–36

Peru, community health, 811–818

pharmaceutical advertising, 333–338

political economy of health, in Africa and Latin America, 405–530
in France, 539–550
in Ecuador, 905–915

political refugees, and mental health, 715–727

political violence, and health in the Third World, 631–767

psychoanalysis, in Argentina, 751–758

psychosocial factors, in chronic respiratory illness, 791–803

punctuality and pain, among Sicilian-Canadians, 851–859

QALYs, in decision making, 299–308
and resource allocation, 1331–1338

rabies, and politics of immunisation in the United States, 843–849

refugees, and health care in Sudan and Somalia, 1053–1058

respiratory illness, and disability, 791–803

risk assessment, and the aged, 81–86

schizophrenia, treatment patterns, 323–331

self-medication, in Ecuador, 905–915

shame, unemployment and health, 783–789

Sierra Leone, determinants of fertility, 285–292

smoking, and health policy in Finland, 292–297
and health beliefs in Australia, 1311–1314

social class, the study of health care, 497–530
the study of health resources in southern Africa, 515–530
low birth weight and social mobility, 613–619
and the treatment of cardiovascular disease, 1205–1209

social epidemiology, its approach to heart disease prevention, 309–314

social support, and breast cancer patients, 19–27
and post-stroke adjustment, 239–247
and cardiovascular health, 249–260
and gender differences of perception, 1221–1228
theoretical perspectives, 1275–1282

Somalia, and health care, 1019–1030

South Africa, commodity relations and nutrition, 444–446

Southeast Asia, refugees and stress, 183–195
child health in, 659–667, 741–750

Sri Lanka, health education, 365–379
and health beliefs, 963–970

stress, among refugees, 183–195
and political instability, 621–624
in medical schools, 1321–1329

stroke, and psychosocial adjustment, 239–247

students, health-related behaviour, 29–36

suicide, and gun control in the United States, 805–809

surgery, breast cancer and personal adjustment, 19–27
patient involvement in decision making, 829–835

Sweden, cartographic study of hospital utilisation, 141–146

Switzerland, coronary arteriography rates, 115–120

Tanzania, and health care, 1031–1037

technology transfer, in developing countries, 769–781

terminal care, in hospices, 551–559

terminal illness, and marital support, 971–983

Third World (see developing world)

traditional beliefs, in the Congo, 1255–1267
in South India, 1289–1309

traditional medicine, humoral theory, 45–51
in the Yemen, 381–388
and the treatment of diarrhea in Nepal, 593–604
in transition, 605–612
and health care in Eastern Peru, 811–818
among Korean immigrants in U.S., 875–884
in Southwestern Nigeria, 917–924
and food taboos in Nigeria, 985–996

Turkey, sociocultural determinants of child mortality, 571–576

unemployment, shame and health, 783–789

United States, changes in health policy, 531–538
suicide and gun control, 805–809
immunisation, 843–849
hospital budgets and rates of admission among psychiatric patients in New York State, 861–867
health policy, 887–898

women's health, comparative rates of survival, 233–238
household and health, 447–473
in East Africa, 447–459
and economic development in Latin America, 461–473
and doctor/patient communications, 945–956

Zimbabwe, AIDS, sexual behaviour and education, 957–961
health knowledge and practices in rural communities, 1249–1253
